WORLD CLASS RUGBY combines superb graphics and realistic animation with gameplay so true to life you'll be on the edge of your seat cheering'! All the key aspects of Rugby Union are included - tackles, scrums, mauls, rucks, line-outs, penalties, conversions, offside - even rugby's highly sophisticated advantage rule is implemented.

Choose from the many preset moves as you plan your winning strategy. With one eye on the radar you can see what's happening anywhere on the pitch - or, if you prefer, switch to the innovative 'blimp' view for a smaller scale display which increases the visible playing area by four times!*

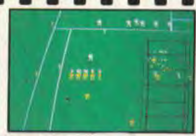

All the countries from the 1991 Rugby World Cup are represented, and you can play friendly matches or a complete World Cup competition. To see a more realistic game you'd probably have to go to Twickenham!

WORLD CLASS RUGBY - no other game looks like it, or plays like it! Reviewers agree - "Without doubt the definitive rugby game" (*The One*); "Should do for rugby what Kick Off did for football!" (*Amiga Computing*).
